Original photos can not be smaller than 3x5 and not larger than 8x10. Remember any small defect or any out of focus will be magnified with this process. This is NOT a photographic process. It is a Hi-Gloss 600 DPI graphic ink jet output. 24 x 36 is the size of the paper. Your photo may not fill this space in proper proportion. A one inch white margin will surround most pictures. Photos are reproduced using computer technology - a 10% color shift of the photo may occur. Texture or matt photos may show small white dots when enlarged, we recommend glossy photos.
